

DEL. SEATEK INDIA PRIVATE LIMITED

Offshore Oil and Gas Services and
Marine EPC Project Services

DEL SEATEK INDIA PRIVATE LIMITED COMPANY PROFILE

INTRODUCTION

Del Seatek India Private limited Mumbai, India was incorporated in 2003 to provide high quality underwater services to the Oil & Gas and Marine Industries globally.

Seatek Oil and Gas Services LLC , Abu Dhabi was incorporated in the year 2012 in Abu Dhabi, to service the Middle , Africa and India Regions.

Del Seatek India Private limited, Doha, State of Qatar was incorporated in the year 2016 in DOHA, to service QATAR PEROLEUM and It's AFFILIATS

Del Seatek India Private limited, Port Louis, Mauritius was incorporated in 2018 to service the **MAURITIUS PORT AUTHORITY**

Air and Saturation Diving Services for :

- Offshore Inspection, Maintenance and Remedial Works
- Pipe lay activities, Tie-ins, Clamp installation, Construction support
- UWILDD and Remedial Works for Rigs, Jack Up's, Semi Submersibles, Drillships
- Jetty Construction and other Marine Civil Works
- Underwater Welding with CLASS Approved WPS and Dive Teams

SPM Operations and Maintenance

Marine Outfall systems including Engineering, Procurement, Installation and Commissioning

Other Services :

- Marine Maintenance Services for Ports, including Maintenance Crew, Vessels, Equipment
- Diving Services for Ports, including purpose built dive boats, crew and equipment.
- Fabrication of Concrete Mattresses
- Grouting Services for Pipeline Stabilization and Free Span Rectification

DEL SEATEK INDIA PRIVATE LIMITED

Project Profiles

- Client** : Vedanta Ltd. / Cairn Energy
- Project** : External Stabilisation of 20 inch Oil and Gas pipeline for Suvali Refinery from LFP to 1km intertidal zone. Design Engineering, Procurement with Installation and Commissioning work. (3 yrs O&M Contract)
- Location** : Suvali Beach , Gujarat. INDIA.
- Period** : April – June 2023 (Project Ongoing)

Client : MARINE EMERGENCY RESPONSE CENTRE

Project : Recovery of Ships side Hull plate at OKHA Anchorage . Salvage Works.

Location : OKHA Anchorage, Gujarat. INDIA.

Period : Feb.2023

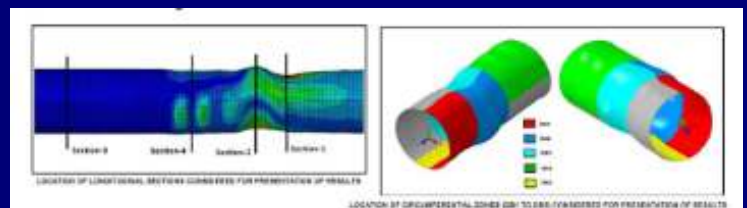

Client : 3X Engineering Pvt. Ltd. For Indian Oil Corporation

Project : Repair Work on 48 inch Oil and Gas Pipeline Pipeline using Underwater Composite wrapping to repair the Damage and Dent location. Ultrasonic Gauging of Pipe, Cathodic Protection Checks prior to Composite Wrapping works.

Location : Paradeep , IOCL Refinery Pipeline.

Period : Jan.2023 - Feb.2023

Client : VEDANTA Limited
: CAIRN INDIA LIMITED

Project : BLOCK RAVA
: REPAIR OF GAS LEAK ON PIPELINE

Period : February 2014 – January 2018
March 2018 – December 2018
December 2018 – November 2021
November 2021 - March 2022

Client : VEDANTA Limited
: CAIRN INDIA LIMITED

Project : BLOCK RAVA
: PROVISION OF DIVING SERVICES AND JACKET CERTIFICATION

Period : February 2014 – January 2018
March 2018 – December 2018
December 2018 – November 2021
November 2021 - March 2022

Client : Marine Emergency Response Centre
: SMIT SUBSEA

Project : MV AVIATOR Emergency RESPONSE AT OKHA
: REPAIR OF COLLISION DAMAGE ON SIDE AND BOTTOM PLATE OF BULK CARRIER MV. AVIATOR

Period : NOVEMBER 2021 – JANUARY 2022

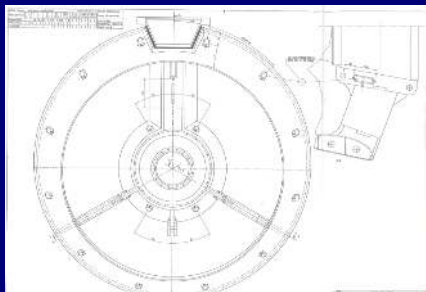

Client : Transocean
: DDKG # 1

Project : Out Of Service Works of DDKG1
: UWILD for CLASS Approval,
Removal of all 132 redundant Anodes
Replacement of New 132 Anodes with Underwater Cutting and
Welding of New anodes on Thrusters # 1,#2,#3,#4,#5,#6.
External Pluggings for Internal Valve Changeouts and
Servicing works .

Period : October 2021 – Nov.2021

Record Completion time Achieved in 29 days using 2 x Full IMCA Air Dive Systems
with 2 x separate Dive teams working Simultaneous Operations on DDKG1.

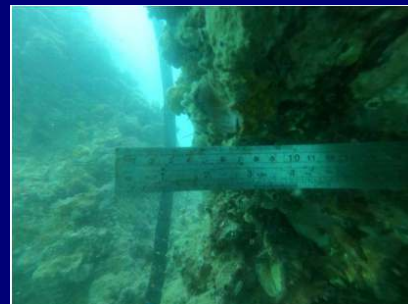

Client : QATAR PETROLEUM

Project : DIVING SERVICES FOR MESAIEED AND RAS LAFFAN PORTS

Period : August 2020 – August 2025

Provision of Diving Services which includes provision of dive boats with dive team, materials, tools & tackles, equipment, for routine under-water inspection of berths, seabed, navigation aids, SPM buoy, floating hoses, subsea hoses, subsea PLEM valves, mooring facilities, vessels for the below ports infrastructure.

Mesaieed Port Facilities : Mesaieed Berths, Mesaieed Offshore Equipment

Ras Laffan Port Facilities : Ras Laffan Berths, Ras Laffan Berth equipment

Ras Laffan Offshore Equipment

Client : QATAR PETROLEUM
Project : MARINE MAINTENANCE SERVICES AT MESAIEED PORT
Period : Sept 2016 – Oct 2022

❖ **The Scope of Work includes Provision of a work boat with crew and Manpower for routine activities like:**

- ❖ **Jetty / Berth Maintenance: Change out of Ladders, Bollards, Fenders along with their Maintenance**
- ❖ **Maintenance of Navigation Buoys – Cleaning, Painting, Buoy Installations, Bridal change outs, Sinker replacement etc.**
- ❖ **Maintenance of SPM – Routine Maintenance of the Buoy Body, Floating Hose Change**
- ❖ **Marine Instrumentation Services: Maintenance of Radar, VTC, Meteorological Bouys, Beacons**
- ❖ **Marine Electrical Services: Crane Electricals, General Port Electrical works**
- ❖ **Marine Mechanical Services: Crane Hydraulics, General Port Mechanical works**
- ❖ **Marine Civil and Structural Services**
- ❖ **Crane Support Services: Gottwald and Terex Cranes**
- ❖ **Scaffolding Services**
- ❖ **VTS Support Services**
- ❖ **Marine Inspection and Technical Services**
- ❖ **Fuel Dispensing for Vessels**
- ❖ **Work Shop Maintenance**

Client : VEDANTA Limited
: CAIRN INDIA LIMITED

Project : BLOCK RAVA
: PROVISION OF DIVING SERVICES AND
JACKET CERTIFICATION

Period : February 2014 – January 2018
March 2018 – December 2018
December 2018 – November 2021

- Diving services for Inspection, Maintenance, Repair of Platforms, Pipelines, Risers , CALM Buoy, and associated subsea structures and equipment.
- Installation of spools & riser clamps, Subsea intervention for emergency repair of pipelines, free span correction, etc
- Underwater inspection of platforms
- Supporting Rig moves and other Marine operations
- Boat Landing Removal from Platform for for Drilling Rig.
- SPM Top side Valve Changeout
- SPM and Floating Hose Change outs
- SPM annual survey and inspection.
- SPM topside maintenance.
- SPM subsea hose change out.
- Tanker loading and unloading operations.

Client : VEDANTA Limited

**Project : BLOCK RAVA
: RECTIFICATION OF EXPOSED PIPELINE FOR CAMBAY**

**Period : January 2014 – January 2017
January 2017 – January 2020
July 2020 - June 2023**

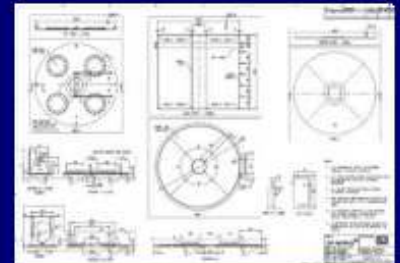

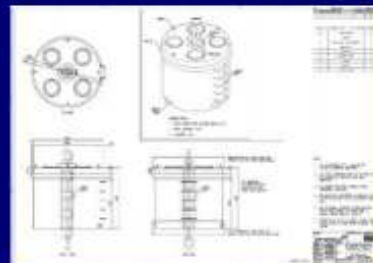

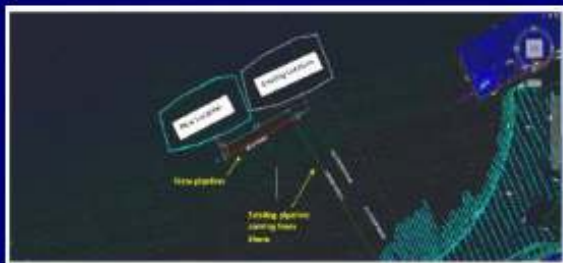

- The scope of remedial works for the exposed 24” subsea pipeline extends in between 0 KP to 1.0 KP .
- Rectify the newly exposed portion of the line by providing geo-textile membrane, sand-cement mix bags, in-situ gabions etc.

Client : WORLD CRANESERVICES FZE

**Project : Engineering and Design Review of Berbera Oil Terminal
: Project Engineering for Mooring, Piping and Non Piping Interface**

**Period : RMQC Damage Inspection at JNPT
: 26 August 2020 – 31 January 2021**

UWILDDs and Remedials Conducted under Class
From 2007 onwards

Services : UWILDD under ABS, IRS, BV, DNV-GL, NK, Lloyds, RINA Class
 Cofferdam installation for remedial works
 Corrosion Cap Installation
 Overboard Plugging/Unplugging
 Underwater Welding - Class approved
 Thruster Changeout
 Replacements of Clamps on Riser and Hydraulic Umbilical

Assets : Drill Ships, Semi-Submersibles and Jack Up Rigs

Aban Ice, Deepwater Frontier, Deepwater Dhirubhai KG-1, Deepwater Dhirubhai KG-2, Platinum Explorer

Actinia, Charles Kirk Rhein Jr, D534, GSF 140, GSF Explorer, M G Hulme Jr, Olinda Star

Aban III, Aban V, Aban VII, C.E.Thornton, Dynamic Vision, F G McIntock, GD Chetna, GD Chaaya, GD Chaaru, GD Chitra, Jindal Supreme, JT Angel, Noble Kenneth Delaney, Randolph Yorst, Ron Tappenmeyer, Sagar Shakti, Trident II, Trident XII, Victory Driller, Vivekananda-1, Vivekananda-2, West Telesto

Asset Owners : Aban Offshore, Chowgule and Company Pvt Ltd, Dynamic Drilling & Services Pvt Ltd, Foresight Offshore, Greatship (India) Ltd, Jindal Drilling & Industries Ltd., ONGC, Shelf Drilling, Pipavav Technical Services Pvt. Ltd, Seadrill Telesto Limited – India Branch, Sedco Forex International Drilling Inc., Transocean, Vantage Drilling

FABRICATION OF CONCRETE MATTRESSES AND SLEEPERS

From 2007 onwards

Services : Fabrication of Concrete Mattresses
Rental of Handling Frames

Clients : Clough Ltd, Hindustan Oil Exploration Company, Kreuz Subsea, L & T
Hydrocarbon Engineering, Leighton India Pvt Ltd, POSH Subsea, Sapura
Energy Bhd, Swiber Offshore, Technip

FLXMAT™ Mattress System is a modular design – mattress size is highly customizable to cater to a wide selection of size, height and weight requirement. With every concrete block encased within 3 mm thick polypropylene shell, FLXMAT™ takes pride in offering uniformly round-edge blocks with smooth surface finish for its mattress.

Mattresses Size : 2.0m x 1.0m x 0.3m to 10.0m x 2.5m x 0.5m
Customised sizes
Anti Abrasion Protection

Client : VEDANTA Limited

: CAIRN INDIA LIMITED

**Project : BLOCK RAJASTHAN
: PROVISION OF DIVING AND
MAINTAINANCE SERVICES AT BHOGAT SPM**

**Period : February 2014 – April 2018
April 2018 – January 2021**

- The Scope of Work involves the supply of manpower, equipment and tools to carry out the operations, inspections and maintenance of the SPM, its associated equipment and subsea pipelines, assist Tanker operations and all types of emergency activities at the SPM including Oil Spill Response.
- Tanker Berthing checks and Tanker Loading /Unloading Operations
- SPM and Floating Hose Change outs
- SPM annual survey and inspection.
- SPM topside maintenance.
- SPM subsea hose change out.
- Tanker loading and unloading operations.

Client : Vedanta Ltd.

Project : SUPPLY AND LAYING OF 8" PIPELINE FOR TREATED WASTE WATER DISPOSAL FROM CB OS -02 BLOCK AT SUVALI, GUJARAT, INDIA.

Location : Suvali Refinery to Diffuser Location.

Vessel : Complete Marine Spread.

Period : Phase # 2 : January 2020 – April 2020.

Client : Vedanta Ltd.

Project : SUPPLY AND LAYING OF 8" PIPELINE FOR TREATED WASTE WATER DISPOSAL FROM CB OS -02 BLOCK AT SUVALI, GUJARAT, INDIA.

SCOPE OF WORK : DESIGN ENGINEERING, PROCUREMENT, INSTALLATION AND COMMISSIONING OF 8 INCH WASTE WATER PIPELINE .

Location : Suvali Refinery to Diffuser Location.

Vessel : Complete Marine Spread.

Period : Phase # 1 : 19th Nov.2018 – May 2019

Client :Mauritius Port Authority .

Project :COROSSION PROTECTION TO QUAY STRUCTURES AT PORT LOUIS HARBOUR, UNDERWATER WELDING OF Total 3107 no. ANODES ON SUBSEA TUBULAR AND SHEET PILES.

Location : Port Louis

Vessel : Dive Boat

Period : 07 August 2018 – 30 June 2019

Client : ASIA PACIFIC MARINE CONTRACTOR
Project : Barge Diving Services for Bahrain LNG Import Terminal Project
Period : March 2018 – July 2018

Client : Cairn India Limited.
Project : Design, Fabrication and Installation of Diffuser for treated Waste Water from Suvali Base.
Location : Suvali, West Coast India.
Period : February 2018

Client : Cairn India Limited.
Project : 24 inch Pipeline Free Span Rectification works
35 free spans corrected.
Location : Suvali, West Coast India.
Period : January – February 2018

Client : Indian Oil Corporation (Paradeep)

Project : Survey of damaged IOCL Pipeline using Side Scan Sonar and DGPS
for Survey of Pipeline on Route # 3.

Location : Paradeep, East Coast India.

Period : September 2017

Client :Patel Construction Company

Project : Post Burial of 22" HDPE Pipelline with Concrete Blocks to 1.5m below Seabed with complete Top Cover.

7.5 KM through out Intertidal Zone, Design, Engineering, Supply, Erection & Commissioning of On Shore and Off Shore Pipeline Sea Discharge of 25 MLD.

Location : Anjar, Kutch, India.

Vessel : 6 Point Mooring barge Zala 4 with 2 x AHTS and Cargo Barge K10.

Period : 26th Feb – 14th April 2017

Client :Mangalore Refineries and Petrochemical Limited

Project : 1 year Service Contract for Provision for Industrial Rope Access Services during Shutdowns.

Work Scope : Inspection of all Pipelines, structures and Pressure Vessels at Heights using Ultrasonic Thickness Gauging, CVI and GVI inspection techniques.

Location : Mangalore Refinery, Manglore.

Period : Sept. 20th – 30th 2016.

Client : Patel Construction Company

Project : Design, Engineering, Supply, Erection & Commissioning of Onshore and Off Shore Pipeline Sea Discharge of 25 MLD

Location : Anjar, Kutch, India.

Vessel : 4no.x Spud Barges with Excavators, Cranes and Support Tugs.

Period : 28.10.2015 – Ongoing

Client :Reliance Induatries

Project : CRP Platform Underwater Inspection
Location : KG D6, East Coast of India
Period : 25th Jan.2016 – 23rd Feb.2016

Client :Cairn India Limited

**Project : Provision for Diving Services,
Free Span rectification on LA and LB**
Pipelines Ravva and CB/OS-02 4 year IMR Contract.
Location : Suvali, India.
Vessel : MV Meghna.
Period : 2nd Jan. – 21st Jan.2015

Client :CCC Underwater Engineering UE

**Project : Provision of Dive Teams for Air and Saturation Diving
Inspection and Construction Diving.**
Location : Middle East and India.
Vessel : CCC Pioneer, HLS 2000, Maridive Constructor, DLB 750
Period : Sept. 2006 – 2015

Client : HPCL Mittal Energy Limited

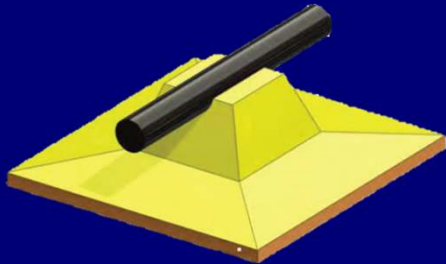

Project Consultants : Engineers India Ltd.

Project : Free Span Rectification of 48 inch Pipeline from SPM to LFP at Mundra.

Location : Gulf of Kutch, Near Mundra Port , India.

Vessel : IBIS Barge and AHT Sea Melody.

Period : April – June 2014

Diver Installed Underwater Grout Bags for Pipeline Supports.

Client : Great Offshore / Engineers India Ltd. (EIL)

Project Mangalore Refinery and Petrochemicals Ltd.
(Phase # 2 Completion)
Installation of Collar Clamps on 48" Spool Piece on PLEM side and Pipeline Flanges.
Final Pressure testing of 48" pipeline.
Installation of Altimeter and Subsea assistance for SBM commissioning.

Vessel : Malaviya # 3.

Location : Mangalore, West Coast India.

Period : Oct.2013 – Nov.2013

Client : Great Offshore / Engineers India Ltd. (EIL)

Project Mangalore Refinery and Petrochemicals Ltd.
Gasket change and Leak rectification works on 48" tie in Spool (PLEM to Pipeline)
Installation of Grout bags for Pipe Stabilisation works

Vessel : GAL Constructor

Location : Mangalore, West Coast India.

Period : April – June 2013

Client : Hyundai Heavy Industries, Korea

Project Indian Oil Co. Ltd. SBM # 1

Gasket change and Leak rectification works on 48" tie in Spool (PLEM to Pipeline)

Installation of Collars on Subsea Hoses.

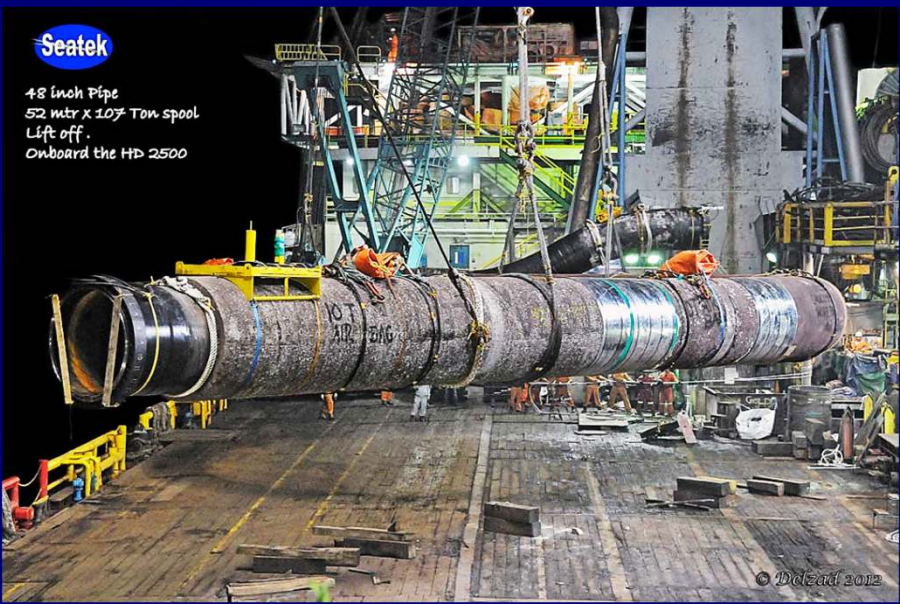

Installation of Anodes with Underwater Welding

Installation of Fabrication aids of the PLEM

Vessel : Hyundai HD2500

Location : Paradip, East Coast India.

Period : Feb. 2013 – March. 2013

Client : Hyundai Heavy Industries, Korea

Project Pipeline, SPM installation and Tie ins for IOCL Ltd. Season III

Complete Diving Services

Vessel : Hyundai HD2500

Location : Paradip, East Coast India

Period : Dec. 2012 – Feb. 2013

Client : Hyundai Heavy Industries, Korea

Project Pipeline, SPM installation and Tie ins for IOCL Ltd. Season II

Complete Diving Services

Vessel : Hyundai HD1000

Location : Paradip, East Coast India

Period : November 2011 – April 2012

INDIAN OIL PARADIP PLEM # 3, SBM # 2 & # 3

Client : Indian Oil Corporation
Project : SBM J Tube Repair works
Vessel : SBM
Location : Vadinar, India
Period : 14th Dec.2011 – 15th Jan.2012

Client : Leighton Contractors (India)
Project : SPM System for Cairn Energy Ltd
Complete Air Diving Services for
Pipelaying, SBM Installation,
installation of Tie Spool.
Vessel : Leighton Eclipse
Location : Gujarat, India
Period : October 2010 – June 2011

Client : Hyundai Heavy Industries, Korea
Project : SPM System and Pipeline Installation
for IOCL Ltd
Season I Complete Diving Services
Vessel : Hyundai HD2500
Location : Paradeep, East Coast India
Period : December 2010 – April 2011

Client : Leighton Contractors (India)
Project : SPM System for Cairn Energy Ltd
Complete Air Diving Services
Vessel : Leighton MYNX
Location : Gujarat, India
Period : October 2010 – June 2011

Client : Neptune Marine Services, Australia
Project : IRM Works for Qatar Gas
Vessel : DP2 Neptune Trident
Location : Offshore Qatar
Period : January 2010 – May 2010

Client : K2 Specialist Services M.E
Project : Inspection & Diving Suupport
Services
Location : Abudhabi,U.A.E
Period : July 2010

Client : Leighton Contractors (India)
Project : I0200 SPM System for HPCL
48" Pipelaying,
SBM installation,
Installation of 2 x 48" Tie in Spools.
Vessel : Leighton Stealth
Location : Visakhapatnam, India
Period : December 2009

Client: Helix Energy Systems, Houston

Project: Supply of Construction Crew on DPDSV Rem Forza

Location: East Coast, India

Period: July – September 2009

Client: Leighton India Pvt.Ltd

Project: IOCL Residual Works.

Dive Support for 12 inch pipelay with Diffuser.

Installation of 25 meter 12" Tie in Spool piece.

Location: Paradeep, India.

Period: January - February 09.

Client : Cal Dive International

Project : DPDSV Eclipse
Base Support Services, Supply of Rigging and Diving Personnel, Supply of Diving Gases, Project Consumables, Specialised Tools.

Location : Reliance KG D6 – East Coast of India

Period : Jan 2008 – December 2008

Client: Helix Energy Solutions – Houston USA

Project: DPDSV Eclipse
Base Support Services and hire of heavy plant equipment, Torque tools, etc.

Location: Reliance KG D6 – East Coast of India

Period: Jan 2008 – March 2009

Client : Upstream Petroleum, Australia
Golden Dream Shipping, Norway
Project : Crystal Sea Import Flow line Repair
Location : Platform N1 Bombay High North Field.
Phase – 1 : August 2006 – January 2007

Seatek India carried out complete project management, engineering, preparation and approval of work scope, procurement, fabrication, mobilisation, offshore topside and sub sea works, third party verification, documentation and reporting.

Client : Clough Engineering, Australia
Project : Panna Field Development
Location : Panna Field, Offshore India
Period : 2005 - 2006

Project support services, Fabrication of Offshore Components and Installation Aids

Procurement and Sourcing of Project Permanent and Temporary Materials
Logistic support, Deployment of skilled manpower for top side and sub sea activities, Hire of plant and machineries.

Client : Clough Engineering – Australia
Project : Hazira Pipeline Stabilisation
Location : Mumbai and Hazira, India
Period : 2004 - 2005

The Seatek Office was the centre of execution of the complete second phase of the Hazira Pipeline Stabilisation Project carried out by Clough Oil and Gas in India. Responsibilities included Project Management, Manpower deployment, Procurement, Fabrication, Hire of Heavy plant and machinery, Marine spread, Set up and operations of Fabrication Yard for Sub Sea Concrete Mattresses, Transportation of 315 concrete sea mats, 15 tons each, to Hazira for stabilisation of 12 inch gas pipeline.

Our client's comments for the Project.

“The local company, **SEATEK INDIA** is supplying the necessary office space, infrastructure and liaison services to Clough to make it all happen in the Epicenter of one of world's most chaotic and bureaucratic metropolises.”

Client : Clough Engineering – Australia
Project : Hazira Pipeline Stabilisation
Location : Hazira, West Coast, India
Period : 2003 - 2004

Supply of Marine Support Vessels, Transport of Equipment to Offshore construction barges including supply of heavy Machinery and fabrication of custom made non conventional tools for carrying out sub sea works.

**Suffolk Offshore Services Limited – West Africa:
2002 - 2004**

Supply of skilled manpower for Offshore and Marine Projects such as Air and Sat Divers, Life Support Supervisors, Technicians, Construction crews, etc.
Procurement of specialized underwater equipment and fabrications of custom made tools.
